STEP 1 — CHECK THE SCALE

A bank card must fit this outline exactly (85.6 mm wide)

STEP 2 — MATCH A RING (place your ring over the circles; the circle should touch the INSIDE edge)

STEP 3 (ALTERNATIVE) — CUT-OUT SIZING STRIP

Cut out the strip, wrap it snugly around your finger, and read the circumference in mm where it overlaps the 0 mark.

reading in mm = inner circumference = your EU / ISO ring size

Tip: 52 mm = US 6 · 54.4 mm = US 7 · 57 mm = US 8 · 59.5 mm = US 9 · 62 mm = US 10
